Montreal, Quebec | 514.347.3032 | i_hemmat@live.concordia.ca

Date of Bearh: 03/31/2003 | Portfolio website | Student ID: 40205441

Dedicated young professional currently studying Computer Science major, with complementary experience in customer service obtained from a busy retail environment. Predicted to receive excellent grades at Java language courses COMP248 (B+) and COMP 249(Current), and web development course SOEN287(B) in Fall 2023 term. Passionate in basketball with over 3 years of playing as a team member in my home country Iran. Pop music lover. Dedicated to both personal and professional development. A reliable team member with a personable nature and positive communication style.

Education

Concordia University

Major: Bachelor of Computer Science

English Language: proficient

French language: Beginner (Learning in progress)

Experience

Customer Service, Sales Agent (Part-time) in Rogers, Fido wireless companies

- Successfully re-engaged and convinced previous customers to re-establish their association with our company
- Demonstrated proficiency in English communication, ensuring clear and effective interactions with clients

Part-time McDonalds cashier

- Worked in the front section of the restaurant accepted orders and prepared drinks and fries. I was able to communicate French with customers which improved my French speaking ability a lot.
- Learned valuable experiences like time management, being polite, and work ethic.

Volunteered in Concordia Open House event

- Guided and welcomed prospective students through the university premises
- Assisted in logistical tasks including assembling and arranging event materials.
